UNANIMITY DEVELOPED

On Most Questions of the Peace Treaty.

ONLY ONE STICKING POINT.

That Is With Reference to the Philippines.

SOME FAVOR THEIR RETENTION.

Others Think They Should Be Turned Back to Spain Unconditionally, Retaining Only a Coaling Station in Luzon For Uncle Sam.

Washington, July 30.—Nearly five hours' earnest discussion by the president and his constitutional advisers of the nature of the response to be made by the government to the Spanish overture for peace brought no conclusion and the subject necessarily was postponed for further consideration at another meeting of the cabinet at 10:30 a. m.

The point under discussion during the greater part of the meeting was what disposition should be made of the Philippines. On the other issues unanimity developed. There was to be independence demanded for Cuba; Porto Rico was to be ceded to the United States; coaling stations were to be acquired at Guam in the Ladrone islands and one in the Caroline islands.

These propositions were disposed of quickly but when it came to the Philippines, some diversity of opinion was revealed. Accepting the broad proposition that Spain was to be allowed to keep these possessions, other questions of importance developed and it was felt that these must be answered definitely before the subject could be disposed of.

There was no question as to the propriety of demanding the coaling station in the Philippines and, while there reasonably might be a difference of opinion of the location and extent of this station, little difficulty was expected to be encountered in solving that problem, because the matter could be referred to the naval board who are competent to deal with the subject.

The perplexing problem was what form of government should be instituted in the Philippines, and what should be the nature of the guarantee required of Spain that the new government should be liberal and autonomous in character. These two questions hinged on the primary decision to interfere at all in prescribing a change in the conditions in the Philippines.

Some members of the cabinet felt that the insurgents under Aguinaldo, having acted independently of the United States from the very beginning of the insurrectionary movement, and having lately shown a disposition to make trouble for us, had no moral claim upon the United States in the settlement of the terms of peace.

On the other hand it was urged that our government should lose no opportunity to extend its principles throughout the world and that this would be done best in the present case by requiring Spain to extend genuine autonomy to the Philippines.

A point which was quickly established was that there should be no reference of any phase of the question of the disposition of the islands to any concert or individual action by outside powers.

Another point that was settled, though there was no formal action in it, was that no protest against the continuance of military or naval operations pending the peace negotiations would avail in the slightest; that there would be no armistice, no suspension of operations nor any modification whatever of present plans until the Spanish government had agreed to the terms proposed.

Incident to the cession of Porto Rico and the recognition of Cuban independence by Spain was the decision that every vestige of Spanish government and authority in the Caribbean and West Indian waters must be removed, effecting a material acquisition of numerous islands over which the Spanish flag flies, one of the most important of which is the Isle of Pines.

Furthermore, this sweeping change of authority from Spain to the United States in our nearby waters is to be effective also as a quit claim of all indebtedness assumed by the Spanish government and charged by her to the United States, so far as the United States is concerned, and all commercial treaties now existing between the Spanish government and her possessions there and outside powers are extinguished.

One factor in the protracted discussion of the Philippine problem was the absence of advice as to the existing situation there on this date, a point that might be of considerable importance in the adjustment of the question.

The unconfirmed dispatch reporting Manila had surrendered was read and commented on as indicating that definite action without knowledge of the exact situation at Manila might cause a statement regarding conditions that did not exist.

Boston Amazons.

Boston, July 30.—The latest novelty in recruiting is that the women are now making application to serve in the army "as nurses or in any other capacity." Captain Quinton, United States army, recruiting officer here, says that he has had a number of letters from women in this city with the above request, while others come in to him in person to make the application. One woman came up to see the captain and she said she knew of 30 women who wanted to be formed into a regiment of their own sex if they could get others to go with them. She said that they had talked the matter over, and would tender their services to the army. They also knew a large number of other women who were favorably impressed with the idea.

Chartered Five Steamships.

Philadelphia, July 30.—As a consequence of the many changes made in its fleet of vessels by the war demands of the government and the development of the Klondike travel, the American Line Steamship company has decided to transfer the boats now running between Philadelphia and Liverpool to its New York and Southampton service, replacing them by five large German steamships, which it has chartered from the Hamburg-American Packet company. It is the intention of the company to maintain a regular weekly service from Philadelphia, leaving every Saturday on this side and every Wednesday from Liverpool.

Company of Scouts.

Chickamauga, Ga., July 30.—Colonel Smith, commanding the One Hundred and Fifty-eighth Indiana, has just formed a company of scouts in his regiment. The organization numbers 96 men, eight from each company, including one noncommissioned officer and seven privates. The company is in charge of Sergeant S. T. Clair, a veteran of the civil war, and who was for 22 months one of General Crook's scouts. He has already commenced training the boys. They are first learning to crawl along the ground lying flat on their stomachs.

Welcomes News Received.

Washington, July 30.—The most important news received at the war department was the cable from General Miles announcing the excellent progress being made in southern Porto Rico and the capture of Ponce. The navy department also received a cable announcing that the navy had captured the city of Ponce and landed the forces under General Miles. The department expects an easy conquest of Porto Rico, and notwithstanding the overtures for peace made by Spain the war will be prosecuted vigorously in that island.

Would Not Yield the Philippines.

Washington, July 30.—It was stated in a high diplomatic quarter, in such manner as to give semi-official character to the expression, that if American control or supervision of the Philippines was an indispensable condition laid down as the basis for peace negotiations, it was practically certain that the Spanish government would not accede to this condition, but would determine rather to continue the war. To the other peace conditions Spain would cheerfully yield.

Think Spain Is Sincere.

Washington, July 30.—Public men who talked with the president and members of the cabinet positively assert the administration has confidence in the sincerity and motive of the Spanish note; that the administration takes the view that this note is the beginning of the end, and that the administration is practically certain the answer of this government and the general terms it will propose will be accepted by Spain.

Dons Pablo Stricken.

Tangier, Morocco, July 30.—The French steamer Obia which recently touched at Tangier with 90 refugees from the Canary islands, reported that the foreign consul at the Canaries had notified the subjects of their governments that Commodore Watson's squadron was coming, and the people, therefore, were panic stricken and were seeking refuge in the interior of the islands.

Americans Guarded.

Tangier, Morocco, July 30.—Threats of the Spanish residents here caused

the house of Mr. F. C. Partridge, the retiring United States consul, to be guarded before he left, and, in addition, his successor, Mr. Samuel Gummere, was escorted to the consulate, which is still guarded by Moorish troops. One American family which had been residing at Tangier went to Europe, fearing violence.

Shafter Heard From.

Washington, July 30.—General Shafter was heard from in a message relating to the transports in Santiago, which are wanted to carry additional forces to Porto Rico. He reported that they were being unloaded as fast as possible and that the Yucatan, Allegheny, Comal and San Marcus sailed for Tampa Thursday, while the Segurana, Miami and Matawa were to sail at once.

Don Carlos Warned.

Berne, Switzerland, July 30.—The federal council of Switzerland has intimated to Don Carlos, the Spanish pretender, now at Lucerne, that he must leave the country in case he starts an agitation in Spain.

They Were Welcome.

Santiago de Cuba, July 30.—Not with fire and sword did the victorious soldiers of the United States enter the ancient capital of Cuba, but bearing meat and bread for her starving inhabitants and disarmed defenders, and they were received, not in fear and trembling, as conquerors are by a fallen city, but with outstretched hands, as deliverers from famine. For the people of Santiago were starving, rich and poor, merchant, soldier and vagabond.

Fourth Ohio Gets Away.

Newport News, Va., July 30.—The auxiliary cruiser St. Paul, the last of the transports of the first Porto Rican expedition from this point, did not get away until daybreak Friday morning, having been detained over night in order to receive her full supply of stores. The Fourth Ohio is aboard the St. Paul, which will easily overtake the other ships.

Picking Up the Stragglers.

Chickamauga, Ga., July 30.—The Fifth Illinois regiment, whose moving orders were revoked, is still considerably demoralized, but every effort is being made to get it back into shape. The large number of men who failed to return to camp when the regiment was ordered back are being gathered in as rapidly as possible.

Belief That Merritt Has Landed.

Washington, July 30.—The belief is general in the war department that General Merritt has landed in Manila, though no cable information to that effect has been received. The fact that Merritt sailed a month ago and has had ample time to reach Manila is the ground for the belief in the department.

Entitled to Rations.

Washington, July 30.—The army regulations have been amended so as to provide that enlisted men, hospital matrons and female nurses, shall be entitled to one ration per day, and also that a civilian employed with the army, whose pay does not exceed \$60 per month, may receive one ration per day.

Ordered to Join Camara.

Gibraltar, July 30.—The Spanish cruiser Lepanto, now at Cartagena, has been ordered to join Camara's squadron, which has been at Cadiz since Wednesday. The cruiser Alfonso XIII is quite unfit for sea. She requires quite extensive alterations.

Telegraph Office to Be Opened.

Washington, July 30.—General Greely has received information from Colonel Allen of his corps that arrangements have been made to open the telegraph office at Ponce, Porto Rico, which was closed Monday by the Spaniards.

Date of Conference.

Ottawa, Ont., July 30.—Sir Wilfrid Laurier, the premier, announces that the international conference to settle the differences existing between the United States and Canada will open on Aug. 10 next.

Nothing Known in London.

London, July 30.—At the United States embassy here nothing is known of the reports that the negotiations for peace between Spain and the United States are to be conducted in London.

Sailed For Manila.

San Francisco, July 30.—The transport steamer St. Paul, bearing the first battalion of North Dakota volunteers, the Minnesota and Colorado recruits, sailed for Manila.

Must Be Authorized.

Washington, July 30.—The secretary of war has ordered that in the case of vessels employed in the transport service of the army fitted up for the transportation of men or animals the fittings shall not be removed or any alterations made on such vessels unless specially authorized.

DRIVEN AWAY.

Mate Coffin Nearly Loses His Life in a Blizzard.

San Francisco, July 30.—A correspondent writing from Point Barrow, under date of April 4, regarding the icebound whalers which have recently received relief, says: "Constant communication is kept up between the various vessels of the whaling fleet. The trouble which had been brewing between Captain Mason and the officers of the crew of the Jeannie culminated in Mason driving Mate Coffin away from the ship at a point of a rifle.

"He fired several shots at him. Coffin made his way back to the storehouse secured a can of roast mutton and set out for the Newport, 25 miles distant.

"A blizzard came on in which Coffin lost his way and wandered for three days and nights on the ice before reaching the Newport. He is now at the refuge station."

Mrs. Maybrick Again.

London, July 30.—In the house of commons, during the debate on the home office vote, Mr. Michael Davitt broached the question of the imprisonment of Mrs. Florence Maybrick, and represented that she was in ill health. Mr. Davitt said, in the course of his remarks, that to "release this American woman would be a small step in the direction of establishing good feeling between England and the United States." Sir Matthew White Ridley, home secretary, replied that he thought the reports of ill health were exaggerated, but he promised to make inquiries.

New Express Company.

New York, July 30.—The Cuban and Pan-American Express company has been formed by New York capitalists to carry merchandise between this country and Cuba. It is to begin operations as soon as the war is ended. The company has been incorporated with a capital of \$500,000.

Wife of Liberia's President Dead.

Washington, July 30.—The state department has received news of the death of Mrs. Ophelia Coleman, wife of the president of Liberia, in the executive mansion at Monrovia, June 24 last. She was a native of Arkansas and emigrated to Liberia in 1895 where she was married to President Coleman the following year.

Harlem Track Raided.

Chicago, July 30.—Four deputy sheriffs raided the Harlem race track and placed under arrest four book makers. The racing was not interfered with. It is thought that the remaining pool sellers at Harlem will be taken into custody.

SHOULD KEEP IT ALL.

The London Spectator Says a Few Things.

SAME IS HEARD IN AMERICA.

Urges United States to Retain the Philippines.

SAYS A GOOD WORD OF M'KINLEY

Thinks He Possesses Many of Lincoln's Great Qualities, and That After All an Elective Monarchy May Be the Proper Thing.

London, July 30.—The weekly papers credit the United States with a desire to deal generously with Spain. The Saturday Review says:

"We are convinced that America will not play the part of 'Shylock,' but, now that she has learned the worthlessness of the Cuban rebels, she will make obvious atonement for the precipitancy with which she entered upon the war by dealing generously with her opponents.

The Spectator takes a line quite unusual in the English press, most strongly urging the United States to assume direct control of both Cuba and the Philippines. It implores the Washington government "rather to break an injudicious pledge to congress than to allow Cuba and the Philippines to be independent or to return to the cruel Spanish dominion." Continuing it says:

"Since it is equally inadmissible to grant independence or to transfer the Philippines to any other power, it is best that the United States should assume the heavy responsibility involved, which will serve to bring out the best qualities of the American nation. England does not desire the Philippines, and if she did she would not take them, because she wishes to prove that her sympathy for the United States is quite disinterested.

The Spectator devotes another article to a eulogy of the "splendid and unexpected manner in which Mr. McKinley has risen to the requirements of a high and difficult position," and says:

"The president has developed latent talents showing him the possessor of many of Lincoln's great qualities. It would be remarkable if, for the second time in a generation, the American system of really an elective monarchy proves itself a strong system for dealing with a dangerous crisis. Europe may have been hasty in rejecting the very idea of an elective monarchy as fatal alike to stability and strength.

PROSPEROUS JULY.

Business Better Than Ever Before in the Same Month.

New York, July 30.—R. G. Dun & Company's weekly review of trade says:

"Big business in January is expected, but big business in July means more. It is the month of all others when trade is naturally light, new engagements are ordinarily deferred and men wait for the outcome and movement of crops.

But more business is being done this year than in any previous July of which there are records.

The payments through clearing houses have been 5.8 per cent larger than 1892, the year of greatest prosperity heretofore, and for the month thus far 6.5 per cent larger than last year, and 8.4 per cent larger than in 1892.

But these records and others have to be judged in the light of heavy decline in prices since 1892, so that the volume of business transacted is about 20 per cent larger than the volume of payments indicates.

Considering that the purchases of nearly half the people depend on the success of agriculture and that the prosperity of the entire transporting interest is materially affected by the size of crops to be moved, it may be said with reason that the promise of general prosperity this year is unusually bright.

Failures for the week have been 225 in the United States against 236 last year, and 26 in Canada against 28 last year.

State of Texas Arrives.

New York, July 30.—The Red Cross relief steamer State of Texas has arrived at Quarantine from Santiago.

Dr. Pepper Dead.

Oakland, Cal., July 30.—Dr. Pepper of Philadelphia, a prominent eastern physician, died at Castle Verona, the country seat of Mrs. Phoebe Hearst in Pleasanton. The cause of death was heart failure. Dr. Pepper was a very old friend of Mrs. Hearst and at her invitation was spending the summer months in the country. The remains have been embalmed and shipped east.

For Kentucky.—Fair in western portions, showers in eastern portions; variable winds.

It is given out as "a straight tip" that ex-Gov. John Young Brown, of Louisville, will, within the next sixty days, announce his candidacy for the Democratic nomination for Governor of Kentucky. At first he did not intend to make the race, but quietly pursue the practice of law in Louisville. However, his warmest friends are using such pressure on him he can not refuse. It is claimed he already has petitions with fully 40,000 names asking him to make the race. With Brown, Stone, Johnston and Goebel after the nomination, the race will be an exceedingly lively one from start to finish.

The Government saves \$850,000 by accepting the bid of that Spanish steamship line to transport the prisoners captured at Santiago back to Spain. When it became known that the Government had decided to send the prisoners back to Europe, the big American transportation companies formed a combine and refused to bid against each other. They wanted \$110 for transporting officers and \$55 for common soldiers. The Spanish line, which it was thought would be ignored because of the rampant patriotism of the would-be robbers and the attitude of sympathy of the Spanish line for its home government, modestly bid \$40.50 per head for carrying both officers and men and got the job. "There is one thing you can bet the American contractor will do, and that is stick his country whenever he can," says the Georgetown News-Democrat. These would-be robbers were completely knocked out, however, by the Government's action, and they were so enraged at the loss of the million dollars they expected to pocket, that they threatened to appeal to the courts to enjoin Uncle Sam from giving the contract to the Spanish. The country has a few enemies worse than the Spanish.

The Congressional Contest.
 GREENUP, Ky., July 28.—The Democrats of Greenup County will meet in mass convention in Greenup on Monday, the 8th day of August, 1898, at 2 o'clock p. m., to select delegates to attend the Ninth Congressional district convention, to be held at Cynthiana, Ky., on August 10, 1898, to nominate a Democratic nominee for Congress in this Congressional district. This county will doubtless instruct for W. T. Cole, who is the second son of ex-Circuit Judge A. E. Cole, of Maysville, who occupied very creditably the bench in this judicial district for several years.

Keeping Posted.
 The Weed, Louisville: "The American Tobacco Company has employed several experienced men in different counties of the burley section, whose duty it will be to keep the company posted on the different stages in the development of the crop. The company will be given daily reports from these agents, who will constantly look at the crop, and estimate what can be expected from it. The manufacturers intend being well posted in the future, and take 'nobody's word' as to condition or yield but their own employees. Liggett & Myers already have such a service in the field."

Pork Packing and Provisions.
 (Cincinnati Price Current, July 28th.)
 There is continued plentifulness of hogs. Western killings for the week 435,000, compared with 410,000 the preceding week, and 360,000 two weeks ago. For corresponding time last year the number was 355,000. From March 1st the total is 8,815,000, against 7,575,000 a year ago—an increase of 1,240,000. The quality is somewhat irregular, a portion of current offerings being only fair. Prices have been moderately variable and close without much change in comparison with a week ago.

During most of the week prices of leading articles of product were well maintained, but toward the close there was developed weakness and considerable decline, partly due to the continued large manufacture, and partly to the fear more or less prevalent in the trade concerning yellow fever conditions in the South.

How To Look Good.
 Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; if your kidneys be affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys. Purifies the blood, cures pimples, blotches and boils, and give a good complexion. Every bottle guaranteed. Sold at J. J. Wood & Son's drug store. Fifty cents per bottle.

IMPORTANT RULING.

Judge Barr Decides That the Constitution Makes No Change in Law as Regards Fellow-Servants.

Judge Barr recently handed down an opinion at Owensboro in the case of Henry vs. Illinois Central railroad, which will prove of interest to every lawyer in the State. It clears up a point about which there has been much argument. Henry was injured in a railroad accident. On the face of the petition, it appears that the injury occurred as the result of the negligence of a fellow-servant. A demurrer was filed to the petition, raising the question whether Section 241 of the State Constitution prevented the application of the doctrine of fellow servant.

The case was argued by counsel. Judge Barr held that the Constitution did not change the law. He held that the Court of Appeals of Kentucky had decided that Section 241 of the Constitution did not interfere with or prevent the defense of contributory negligence, which previously existed, and that, although these cases which the Court of Appeals had passed on were not distinctly in point, the principle announced in them was decisive of the question he was considering, because the same reasons which would prevent the language of the Constitution, as used in the above named section, from covering the defense of contributory negligence would apply to the defense of the defendant, that the party guilty of the negligence or wrongful act was not acting as his or its agent.

Judge Barr held that, although the section as originally reported to the convention was somewhat different from that which became part of the Constitution, that fact should not have weight unless the language now in the Constitution by some recognized canon of construction might cover the question under consideration, nor should the very able opinion of Gov. Bradley, as expressed in his veto message of the fellow-servant bill have controlling influence in the consideration of the question.

Judge Barr gave great weight to the fact that the Legislature thought it necessary to pass an enactment upon the subject of fellow servants, as showing that the legislative department of the government did not think the Constitution changed the law.

AWAITING ORDERS TO MOVE.

The Fourth Regiment Mustered Into the United States Army Friday.

(Lexington Leader.)

The Fourth Regiment Infantry, Kentucky Volunteers, is now subject to direct orders from Adj. Gen. Collier, for it is now in every sense of the word a part of the volunteer army of the United States. The last step toward making it a part of the volunteer army was taken at 3 o'clock Friday afternoon, when Maj. John Green Ballance made a verification of the muster rolls, more generally known as the "mustering in of the regiment."

It was on the 27th day of last month that the first troops of the Fourth arrived in Lexington, and to-day the muster rolls showed that 1,254 privates, 36 company officers, 10 staff officers, 28 hospital and band members had been sworn into service, making a grand total of 1,328.

It is doubtful if such a record has been made by any regiment in the United States as that of the Fourth in the point of rapid mobilization and organization; and certainly no such record has been made when the difficulties under which this regiment has labored are taken into consideration.

The regiment is short only eighteen men of the required number to bring each company up to the maximum of 106 men each. These men are being examined by the surgeons and will be mustered into the different companies Saturday, so the Fourth will leave here with every man that a regiment is allowed.

Y. M. C. A.

A strong program has been arranged for the men's rally of the Y. M. C. A. at 4 o'clock to-morrow. Rev. W. H. Ford, of Lexington, will speak briefly on "My Visit to New Zealand." Prof. W. T. Berry will lead the meeting. Mrs. Randolph Madison will play a piano selection from "Gottschalk." Miss Myrtle Filson will sing a solo. Lemonade will be served during the short service. Let every man come with us for forty-five minutes to-morrow.

Narrowly Escaped Drowning.

VANCEBURG, Ky., July 28.—While attempting to cross the river here this afternoon during a storm, Hal Pugh, Ray Pugh, William Cox and George Agnew were capsized and came very near losing their lives, but by holding onto the boat were saved and finally rescued by Doss Kerr, but not until after they had been in the water for a half hour. The close call caused great excitement, as they belong to our best families.

Pogue Distilling Co.'s, C. T. West General Storekeeper and Gauger and H. G. Holliday Gauger at H. E. Pogue Distillery, J. W. Watson & Co.'s, and O. H. P. Thomas & Co.'s.

BROOKSVILLE Review: "Hon. Jas. N. Kehoe, of Maysville, Democratic candidate for Congress, was in Brooksville, Wednesday, looking after his interests. Mr. Kehoe is very popular with the people of Bracken county, and the man who wins the instructions of the county, over him, will have to do some 'tall hustling' between now and the time of holding the convention."

THE Carlisle Mercury says there is no truth in the statement that Miss Ratliff was assaulted by a negro at her home near Sharpsburg. The Mercury explains the affair by stating that she became frightened at seeing a negro man in her back yard, and when he started to run he was pursued by several persons who took up the idea he had done the young lady some harm.

IKE McALLISTER was up again Friday in the Police Court, this time on charge of stealing some articles at Fremont Park. The trial resulted in his acquittal. Chas. Scott, colored, and a white lad named Gray, who have associated with McAllister lately, were ordered by Mayor Stallcup to leave town. They were escorted to the western limits of the city, and warned that they would be given a sound whipping if ever caught in Maysville again. The gang is a tough one.

Shirt Waists.

We'd like to sell you the material for a Shirt Waist, but may be you can't wait to have one made. Let us sell you a ready-to-wear Shirt Waist then. To close them quickly, also because sizes are broken, we mark the 75c., \$1 and \$1.25 kinds at 69c. The garments are well made, and fit like those your dress maker turns out. The material is Lawn, fine Gingham, Madras, Chambray, Pique and Percale. We've sold dozens of them this season and not a complaint from any source.

Consumption Positively Cured.

Mr. R. B. Greeve, merchant, of Chilhowie, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of, but no good relief; spent many nights sitting up in a chair; was induced to try Dr. King's New Discovery, and was cured by use of two bottles. For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made, as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for coughs, colds and consumption. It don't fail. Trial bottles free at J. J. Wood & Son's drug store.

Notice to S. S. Teachers and Superintendents.

Under the auspices of the Kentucky Sunday School Union Mr. Lewis Collins, of Louisville, son of Richard H. Collins, L. L. D., the historian, will address the Sunday school teachers and officers and any others interested in the work Tuesday, August 2nd, in the Sunday school room of the First Presbyterian Church at 7:30 p. m. Superintendents of the various Sunday schools in the city are requested to make this announcement to the teachers at their schools to-morrow and urge them to be present.

Clearance Prices On Carpets.

Our Carpet stock is taking up too much of the room we'll need for the fall business. Many a roll will be sold in the next fortnight at ridiculously low prices and your appreciation of a great bargain is a factor in moving 'em. All of our 60c. Brussels, comprising over a dozen of the very latest designs, reduced to 42 1-2c. a yard. On all other Brussels as well as on all Ingrains a reduction of thirty to forty per cent. Your choice of all of our Axminsters and Moquettes, about 50 rolls in all, that sold from \$1.15 to \$1.25 a yard, at 85c. If you're in need of a carpet now, or for the near future, this is a rare opportunity.

12 1/2c. Organdies, Dimities and Lawns, 5c.

We've taken a large lot of Organdies, Dimities and Lawns that are worth from 12 1-2c. to 15c. a yard, placed them on one counter and let you take your choice of 'em at 5c. a yard. They'll be quick sellers at this price—so don't delay taking your pick.

The Dress Goods Sale.

Will be continued for another week. Remember we allow you a discount of 20 per cent. on this season's prices which means a saving of 45 per cent. on next fall's purchases. A great chance this, for prudent buyers.

NOT DEAD.

The Report That Young John Cogan Was Killed in the Santiago Battle is Not True.

[Cincinnati Post.]

A begrimed and long-delayed letter from a soldier at Santiago dispelled the deepest sorrow from the heart of Barbara Freund. A Kentucky romance may yet be completed.

John Cogan, Jr., and Barbara Freund, of Maysville, were lovers, but the young man's finances caused parental interference and he was forbidden to see the object of his affections.

They resolved to get married, despite opposition, but discreetly postponed the event until they should be able to afford it.

Last January Cogan joined the Sixth Regiment at Ft. Thomas and Barbara came to Cincinnati and became a domestic in a well-known family.

Cogan went to Cuba with his regiment, and after the battle of Santiago word reached Miss Freund that he had fallen. She waited a few days, and the news was apparently corroborated.

The girl, heartbroken, left her position and returned to her parents in Maysville, where she remained in the deepest seclusion until a few days ago, when a letter from her lover brought the joyful tidings that he was safe.

The report of his death had been an error, but perhaps a fortunate one, as the indications are that the parental objections will be removed and the wedding will follow upon the soldier's return.

INCLEMENT weather does not keep the people from Electric Park. A most delighted crowd was out last night, and the show was done up in a 75 cent way; that is the Electric Park attractions from week to week go to the theatres in cities where the ruling price is 75 cents. Here you get to see them for 10 cents. Tonight will end the engagement of the Vernons and Deagons. Next week four new high class, strongly recommended artists, will be here. To-night the opening piece will be a novelty. Mr. Deagon will show his 'fobsterscope, a wonderful invention, and a thing worth going miles to see. Then the Vernons, 'Rastus and Deagons in songs, jokes, skits and illustrated songs, making a program of pleasure. A dime is the price for it all.

A Continuation of Our \$7.65 Suit Sale.

We will continue to sell \$10, \$12 and \$15 Suits for \$7.65 during this entire month. There are two reasons for this. One is that we find we have many more good Suits to put in this sale than we thought we had. The other reason is that our many country patrons are in the midst of the heaviest work of the year and did not yet have an opportunity to avail themselves of these splendid bargains, hence the sale continues during the month.

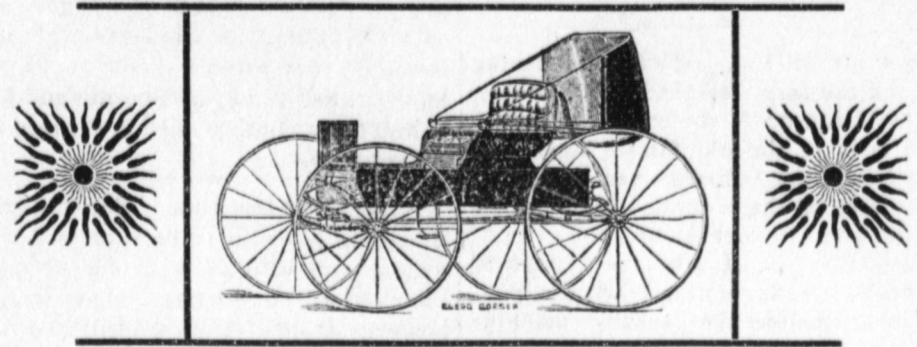

Don't Miss the Opportunity

of buying for \$7.65 a Suit of Clothes that would cost you from \$12 to \$15 elsewhere, and at these prices you would not pay too much for them. They are worth it. Respectfully,

FREAKS OF LIGHTNING.

The Franks It Played In Old Hoosierdom.

OPENED DOOR OF A CLOCK.

In Another the "Bolt" Ran Down the Walls and Melted a Sewing Machine Which Stood Conveniently Near.

Greentown, Ind., July 30.—Lightning struck the farm residence of John Colyar. It ran down the chimney, opened the door of the old family clock and scattered the wheels over the floor; then crossed the room and removed the castors from under a bureau.

Another bolt struck the house of John Fay, and, running down the wall, literally melted the sewing machine and set the house on fire. The large barn of Samuel Murphy was completely destroyed, together with a large amount of grain and hay.

The large barn owned by Mrs. Gaston was also consumed. The loss of grain and hay will amount to several thousand dollars. Many reports were brought to town of stock killed on various farms.

BURGLAR FROM OHIO

Fatally Shoots Christian Lieb, a Groceryman at Richmond.

Richmond, Ind., July 30.—Christian Lieb, groceryman, was fatally shot by George Keefer, who entered the store to burglarize.

Keefer claims to live at Columbus, O., but is more recently of Indianapolis. He is aged about 35. He had stolen a horse and buggy. He was arrested.

Whirled to His Death.

Ft. Wayne, July 30.—Hiram F. Riblett, engineer at Bash's Mayflower mills, was caught in the fly-wheel and instantly killed. He was 67 years old. Riblett was alone in the engine room, but his broken watch indicates that the accident occurred at 3:35 a. m. For an hour the body of the old man, bruised and mangled, was whirled around by the fly-wheel at the rate of 72 times a minute before the accident was discovered. Riblett leaves an invalid wife and several children.

Escaped From the Sheriff.

Shelbyville, Ind., July 30.—Three prisoners in charge of the sheriff of Wayne county, who was taking them to the Reformatory at Jeffersonville, attempted to escape from the train as it neared this place. One of the men went to the closet and jumped out of a window. As the sheriff turned to look after him the other prisoners made a dash for the platform. One of them was knocked down by a passenger and was recaptured, but the other made his escape.

Indiana Postmasters Named.

Washington, July 30.—Indiana postmasters were appointed as follows: Hill Grove, Harrison county, William Haun, vice Oscar Crosby, resigned; Kenzie, Kosciusko county, Franklin Richards, vice James L. Cowgill, resigned; Lucetta, Fulton county, William H. Musselman, vice John A. Tatham, resigned.

Young Man Dying For Love.

English, Ind., July 30.—Albert Ale-shire, a young farmer near Leopold, is at the point of death, due to carbolic acid. He told a friend recently that he was engaged to a young woman who was married a few days ago to another, and this is supposed to be the reason he took the poison.

Many Worthless Claims.

San Francisco, July 30.—E. Lewis of Circle City, Alaska, who came down on the steamer Portland, brings over \$25,000. He states that only one of every 10 claims around Dawson are paying wages. Those that pay at all are paying big money. On Elserade creek, he says, there are about three miles of really rich ground, and on Bonanza creek, every foot of which has been advertised as paying, there are more than 20 miles of absolutely worthless claims.

Cass Pays the Fine.

Toledo, July 30.—Editor Cass gave up the fight on the criminal libel suit preferred by Hon. Charles P. Griffin, and on which Cass was convicted, and paid the fine of \$50 and costs, amounting in all to \$266. The second indictment was nolleed.

Swept By a Hard Storm.

London, July 30.—The northeast coast of this country has been swept by a great storm. The fishing fleets have had a narrow escape, being obliged to relinquish all their gear and nets and run to the harbors for shelter.

Worsted Mills Damaged.

Jamestown, N. Y., July 30.—The Broadhead worsted mills were damaged by fire to the extent of \$60,000; covered by insurance. The plant will continue in operation.

Surrender of Manila.

Paris, July 30.—A telegram from Madrid says that a cable dispatch has been received at the Spanish capital announcing the surrender of Manila to Dewey.

The story of the South's material progress prior to 1860, the destruction by the war and the steady advance during the last fifteen years are briefly summarized in a pamphlet, "Facts About the South," published by the Manufacturers' Record of Baltimore. The BULLETIN acknowledges the receipt of a copy of this interesting work.

The Treasury Department has decided that a depositor may give his receipt for money paid to him by a bank, and the receipt will not be subject to tax. As the tax does not benefit the banks, but on the contrary, it is a hindrance to their business, they will no doubt readily receive the receipt of the depositor and pay to him the amount named in the receipt. —Exchange.

WINCHESTER Democrat: "The corn crop is looking splendid in most parts of this section and with a few more good rains the yield will be very large. The acreage, however, is small, and corn will be apt to command a good price this fall. Some of our largest cattle feeders have small crops and a great deal of land that has been under cultivation has again been sown to grass. This, with the large wheat acreage, has reduced the acreage devoted to corn."

A REMARKABLE example of conversion to Christianity comes from Corea. A number of natives from the province of Kiong sent to the missionaries asking for a teacher. The missionary who visited them found in a single village 140 persons who were anxious to become Christians. A strong interest in Christianity had been excited throughout the entire region simply by the reading of books and by talking with occasional Christian travelers.

The New Richmond News, of last week, says that George O'Neal, the insurance agent, well known in Maysville, had a rather exciting experience Monday. While passing Mt. Pisgah his horse became frightened and made a lunge, jerking the lines from Mr. O'Neal's hands and going at lightning speed up the pike. After going a short distance the buggy went over an embankment, throwing its occupants, Mr. O'Neal and Ed Leeds, out into the ditch. Neither was hurt beyond slight scratching, but the buggy was badly damaged.

This is a Christian nation, the census showing over 20,000,000 church members in a population of more than 70,000,000. The nation's leaders are Christian men. President McKinley is a devoted Methodist. Gen. Miles, like his predecessor, Gen. Schofield, whose brother is a Louisville pastor, is a faithful Baptist. Admiral Dewey is a Presbyterian elder, and has a Christian Endeavor Society on board the flagship Olympia, and on down the line in every department the word of God is honored. The three regiments from Kentucky took with them to Chickamauga over 3,000 Bibles, and many of the soldier boys are active Christian workers.

The Mongolian Pheasant.

Twelve pairs of Mongolian pheasants were released in Brown County, Ohio, this week. With the work of breeding pheasants well under way there is almost no limit to the number of them that can be produced, as they are very prolific. A hen pheasant lays from sixty to eighty eggs in the course of the season, and, under favorable conditions, will raise a large percentage of the chicks hatched out. The phenomenal rapidity of their increase is shown by the experience of Judge Denny, of Oregon, who, in 1881, imported twenty-eight birds from China. It 1884 it was estimated that 13,000 were killed in one single county in three months, while 1,200 dozen were sent in a single winter to one dealer in San Francisco.

This breed of pheasants was introduced in Ohio a few years ago, and the State has made it unlawful to kill them before the year 1900.

Must Be Regularly Done.

London, July 30.—The chancellor of the diocese of London has ordered that application should be made to Sir Francis Henry Jeune, president of the probate, divorce and admiralty division of the high court of justice, to say whether the faculty ought to issue an order empowering Mrs. Anna Maria Druce to open the vaults and inspect the coffin which is alleged to contain the remains of T. C. Druce, who, the applicants assert, was really the fifth Duke of Portland.

A woman's headaches may come from several causes. She may have a headache arising from nervousness, or from digestive disturbances. Nine cases in ten, her headaches come from disorders peculiar to her sex. It may show itself in the symptoms which are characteristic of a dozen disorders. Thousands of times, women have been treated for the wrong disorders. Dr. Pierce's Favorite Prescription was compounded for the sole purpose of relieving womankind of these ills and pains. Thousands of women have testified that after taking treatment from several physicians without benefit, the 'Favorite Prescription' cured them completely and quickly. It has been used for over thirty years, and has an unbroken record of success.

The women who hesitate is invited to send 21 one-cent stamps to cover only the cost of mailing a copy of Dr. Pierce's Common Sense Medical Adviser, which contains plain, clear information about all of the organs of the human body and their functions.

NEVER IMITATED IN QUALITY.

THE EXCELLENCE OF SYRUP OF FIGS is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. ...OF A KIND.—The summer girl and her well brothers who wouldn't think of having their shirt waists shriveled, collars or cuffs done up anywhere but at the Power Laundry. Shirt waists keep their color as well as dainty negligee shirts, crash or linen suits when done up here. There is an art in our exquisite laundry work that back number laundries haven't learned yet.
